MR. COBB UNSEATED

Five Republicans Voted With Democrats to Recommit.

PENSION BILL COMES UP TODAY.

Debate Will Probably Run Until Friday. Unsuccessful Attempt to Get the Bankruptcy Bill Up Next Week—Indian Appropriation and Sectarian School Question in the Senate.

WASHINGTON, April 22.—The house yesterday unseated James E. Cobb (Dem.) representing the Fifth Alabama district and voted 121-45 to seat Albert T. Goodwin (Rep.), but the point of no quorum being made the house adjourned with the final vote still pending. Five Republicans voted with the Democrats to recommit the case with instructions to the committee to permit the contestant to offer testimony in rebuttal. Mr. Cobb had 508 majority on the face of the returns, but the majority found extensive frauds in the three black counties of the district, which reduced Mr. Cobb's vote and gave the contestant 2,300 majority. The minority claimed that no opposition was given to submit evidence in rebuttal and that fraud was presumed, not proved. Mr. Cobb has been a member of the Fifty-fifth, Fifty-first, Fifty-second and Fifty-third congresses. He was unseated by the Fifty-first house. An effort was made to fix Tuesday, Wednesday and Thursday of next week for debate on the bankruptcy bill, but it was unsuccessful. Mr. Pickler's general pension bill comes up today and the debate will probably run until Friday.

SENATE PROCEEDINGS.

Indian Appropriation and Sectarian School Question Discussed.

WASHINGTON, April 22.—The senate spent the day on the Indian appropriation bill, but did not complete it. The sectarian school question was taken up late in the day, and brought out animated debate. Senators Gallinger, Thurston and Teller opposing, and Senators Gray and Lattimore supporting the amendment offered by Mr. Cockrell extending for two years the time for the entire abandonment of sectarian Indian schools. Final action on the question was not reached. Most of the day was given to the contest against legal claims in connection with the western Cherokee settlement, and the claims were finally agreed to.

OHIO'S STORM.

Particulars of the Destruction of Monday's Cyclone.

FREMONT, J., April 22.—Full particulars of Monday's cyclone have just been secured after a careful tour of the entire district traversed by the storm.

The fine farm residence and all the buildings on the farm of George H. Waggoner were razed to the ground. Here it was, while shearing sheep in the barn, that John Lowe met his death. George Waggoner and his 16-year-old son were pinned between the timbers and only liberated after hard work. Their injuries while serious are not fatal. In the house were Waggoner's wife and two daughters. They were thrown several rods and badly injured. Amos Hettrick was struck by a flying timber and his left leg crushed. The sawmill owned by Daniel Henzel is a complete wreck.

Mrs. Joseph L. Greene who was badly injured will die. During the wind storm Mrs. William Sherf and children were driving in a buggy. The outfit was wrecked and they were hurled against a tree and severely injured. The steamer Colonel Bartlett was coming up the river and when struck by the gale nearly capsized and shipped a large amount of water. On board were two government inspectors, besides the crew, and they had a narrow escape from drowning.

Part of the gale struck the Blue banks just as a botanizing class were starting home in a covered carriage. The carriage was wrecked and the students thrown in all directions. It is believed that some of these injured cannot survive.

ANTAGONIZE REV. BROWN.

Allegation That He Is Unfit For the Ministry.

OAKLAND, Cal., April 22.—Rev. C. O. Brown, D. D., pastor of the First Congregational church, San Francisco, is again fighting for his ministerial existence. The Bay conference of Congregational ministers, angered at Brown's refusal to accept the slight censure imposed by the council which tried him upon charges of immorality and unministerial conduct, has preferred new charges against him and reopened the old complaint. The new allegations state that the pastor is untruthful and unfit for the ministry.

Weather.

Indiana—Fair.
Illinois—Fair, preceded by local showers in extreme southern portion.

seedtime

The successful farmer has learned by experience that some grains require far different soil than others. He knows that a great deal depends on right planting at the right time. No use complaining in summer that a mistake was made in spring. *Decide before seed-time.* The best time to treat coughs and colds is before the seeds, or germs, of consumption have begun their destructive work.

Scott's Emulsion of Cod-liver Oil, with Hypophosphites, promptly cures lung and throat troubles. Do not neglect your cold.

SCOTT'S EMULSION has been endorsed by the medical profession for twenty years. (Ask your doctor.) This is because it is always palatable—always uniform—always contains the purest Norwegian Cod-liver Oil and Hypophosphites. Insist on Scott's Emulsion, with trade-mark of man and fish. Put up in 50 cent and \$1.00 sizes. The small size may be enough to cure your cough or help your baby.

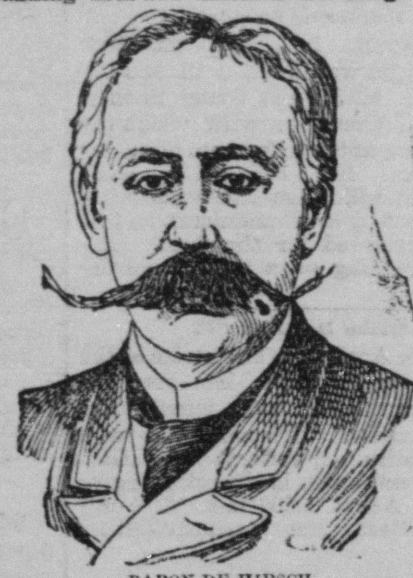

BARON DE HIRSCH.

Death of One of the World's Greatest Philanthropists.

VIENNA, April 22.—Baron Morris de Hirsch died yesterday at his estate near Komorn of heart disease, aged 63 years.

The millionaire railroad builder and philanthropist, Baron Morris de Hirsch de Gereth, was a native of Bavaria, and though it has usually been supposed that his colossal fortune was entirely made by himself, this is not so. Though, to be sure, the ample means he inherited grew in his hands much faster than the accumulations of either his father or grandfather had. If he had not inherited his inheritance so greatly he would never have been classed by the leaders of European society among the objectionably newly rich and have had the doors of many of the great clubs closed to him.

After the death of his father the young baron became a member of a well known banking firm and married the daughter

BARON DE HIRSCH.

heir and the head of the house. He made a princely fortune by his hazardous undertakings in the construction of railways. Yens ago he saw the tendency to oppress the Jews in Russia, and he made an offer of \$10,000,000 to the Russian government for schools, with the one proviso that no distinction should be made as to race or religion. This generous and munificent offer was refused by the Russian government, and shortly afterward began the active oppression which is driving the Hebrew pennants out of the czar's dominions and to the four quarters of the earth. Baron de Hirsch was not only Jewish by birth, but he was an orthodox Jew in his religion.

Large though his fortune was, it was entirely inadequate to provide for all of these people. He therefore saw that he must enlist the assistance of other rich Hebrews in the cause. About this time he met in Constantinople a wealthy American Hebrew, Oscar S. Straus, then United States minister to Turkey. After many and long conferences it was decided that as many of these Russian refugees as could be provided with homes and made self-supporting should be assisted to come to the United States. To this end Baron de Hirsch gave a fund of \$2,400,000, to be paid in monthly installments of \$100,000.

But outside of charities he has been for 10 years past the most besotted man in the world. He has taken all the time of two clerks to open, read, classify and answer the letters of appeal that were sent to the baron from all over the world. He and his wife have also had great ambitions. At Vienna there is a social prejudice against Jews, and they are rarely received at court. At the clubs in Vienna and Paris membership was declined to him. In London the Jewish clubs passed him by. Having gained the friendship of the Prince of Wales, he was elected to membership in the Marlborough, White's and several other swell clubs. This shows a peculiar phase of Baron de Hirsch's character. Why he should have subjected himself to the probability of the mortification of being black-balled by a lot of gilded idlers who frequent these clubs passes comprehension. He had many splendid houses, and the shooting on his estates is the best in Europe. He was also a breeder and racer of thoroughbreds and fond of sport generally.

MAY DEBAR WOMEN.

Belief That the M. E. Conference Will Shut Out Female Delegates.

CLEVELAND, April 22.—From information received here it is believed that the general conference of the Methodist Episcopal church will vote against the women as delegates. The church law requires a three-fourths vote to change the constitution. A few days ago the women were within 49 votes of victory. Three conferences were then to be heard from. Two of them, east Maine and North Dakota, have since voted and the women lack 74½ votes of the required number. It is not believed that Troy conference, which is still to decide, will give the required number and it is thought the women are beaten.

TRIAL PROGRESSING

Jury In Jackson Case Was Quickly Secured.

WITNESSES BEING EXAMINED.

Throngs of People on the Street Anxious to See the Prisoner—Not a Native Kentuckian on the Jury—Prosecution Will Attack Jackson's Character—Accused Was Calm.

NEWPORT, Ky., April 22.—The trial of Scott Jackson for the murder of Pearl Bryan began here yesterday and made speed in securing a jury that astonished the court and the counsel on both sides. Judge Helm presided. Counsel for the prosecution are Commonwealth Attorney M. R. Lockhart, County Attorney Ramsey Washington, Colonel R. W. Nelson of Newport and Attorney Hayes of Greencastle, Ind., the two last named being employed by the Bryan family. Attorneys for Jackson were Colonel George Washington and Colonel L. J. Crawford of Newport, and W. G. Sheppard of Hamilton, O., who will appear for Walling when his trial comes up. George Washington and Ramsey Washington, father and son, are on opposite sides in this case. There were throngs of people on the street anxious to see Jackson, but no excitement other than that of curiosity. The courtroom was crowded early by persons admitted on tickets. There were 36 seats reserved within the rail for the press and every one was filled. Five women were in attendance and as many in the afternoon.

Jury Secured.

In just three and a half hours after court convened the jury was sworn in from a venire of 100 men. About 30 were examined before the noon recess. Of this number 17 had formed stubborn opinions or opposed the death penalty, four were peremptorily challenged, one by the prosecution and three by the defense, and nine were accepted. The noon recess was for two hours and 45 minutes and after court convened again a full panel acceptable on both sides was sworn in. The names of the jurors are:

Names of the Jurors.
Murry Shea. William White.
John Boehmer. John M. Ernstweiller.
Louis Schaefer. E. B. Mader.
William Mott. Willard Carr.
George P. Stegner. John F. Bachman.
Fred Geiskemeyer. David Kraut.

Nearly all are mechanics, 10 are Germans or of German descent, one is Irish and one of English descent. There is not a native born Kentuckian in the jury. The prosecution is allowed five and the defense 15 peremptory challenges. Each exhausted one-fifth of its quota.

After the jury was sworn the court ordered the prosecution and defense to read a list of their witnesses. Colonel Crawford, for the defense, gave notice of exceptions to this order.

Commonwealth Attorney Lockhart read the indictment and stated what the line of the prosecution would be. In this he announced the purpose to attack Jackson's character, showing he lived a double life.

Two Witnesses Examined.

The first witness called was John Huling, the boy that found the dead body of Pearl Bryan on Feb. 1. The second witness, Dr. W. S. Tingley who saw the body two hours after its discovery and who attended both post mortems, gave important testimony. He said the girl must have been killed where the body was found and not earlier than the midnight before her body was found, that the knife that cut her head off was a sharp instrument and the hand that wielded it a skilled hand. Judge Helm aided in cross-examining witnesses. The defense objected, was overruled and took exceptions.

Jackson was calm all day and took notes of the proceedings, especially of the testimony. He was taken back to jail without being handcuffed.

Cuban Reforms Discussed.

MADRID, April 22.—The rumors of the granting of reforms for Cuba by the Spanish government are much discussed by all sections of the political world here. The supporters of the government declare that the ministry has not changed its line of conduct, but that it will submit its proposals to the chambers.

FAVORS DUELLING.

German Statesman's Views Regarding Satisfying Injured Honor.

BERLIN, April 22.—Count Von Bernstorff, Conservative, yesterday continued the debate in the reichstag on the proposal to suppress duelling. He declared that his party was confident that the government would deal seriously with the question of duelling. Dr. Benningsen, National Liberal, hoped it would be a long time before duelling would be abolished in Germany as in England. He denied that Great Britain's opposition to duelling was based on any right to condemn acts of violence since in 1875, he asserted, she had commended the Paris commune to the reichstag. Dr. Benningsen concluded by declaring that the views regarding satisfying injured honor must be changed and that the existing penalties for insults were inadequate.

Accident at a Texas Demonstration.

SAN ANTONIO, Tex., April 22.—While light battery—Third United States artillery—was firing a salute at Fort Sam Houston yesterday commemorating the day Texas achieved her independence from Mexico, the premature explosion of a shell in the open breach of the cannon instantly killed Private George A. Parkhurst and wounded three other soldiers. Parkhurst's right side and arm were blown away by the charge. He was a nephew of Dr. Parkhurst of New York.

Citizens Elect a Mayor.

NEW ORLEANS, April 22.—George W. Flynn, chairman of the regular Democratic committee, conceded the election of Flower, Citizens' league candidate for mayor by 9,000 majority. The league party managers think their majority will be nearer 15,000. Foster (regular Democrat) will probably carry the city by a small majority.

Eyesight Destroyed.

BROOKVILLE, Ind., April 21.—Carl Geis was stretching a wire clothesline when it parted, and the end struck him in the left eye, completely destroying it.

Murder Over Politics.

TAMPAHAWA, La., April 22.—A deplorable tragedy occurred here yesterday. A. H. Goss, the Populist-Republican candidate for coroner of this parish, was shot and instantly killed, and S. C. Hyde, a Democrat and highly respected man, was mortally wounded. The trouble between the men grew out of politics.

Has Found a Job to Suit.

WASHINGTON, April 22.—James H. Mulligan of Kentucky formerly consul general to Samoa and who declined appointment to a consular office in South Africa, has been appointed to a position in the customs division of the treasury department.

NEBRASKA SILVER DEMOCRATS.

LINCOLN, Neb., April 22.—The state convention of the silver wing of the Democratic party of Nebraska convened in Lincoln today to select delegates to the Chicago convention. Silver resolutions will be adopted and the opposition element in the party denounced. The delegation sent to Chicago by the convention expects to have to fight for admission, but expects to win easily. The two wings of the party are quite evenly divided.

THIRTY-TWO BUILDINGS HAVE ALREADY BEEN SWEEP AWAY.

THREE RIVERS, Que., April 22.—The flood here is doing immense damage. The water is now higher than the great flood of 1865 and 82 buildings in all have so far been swept away by the rushing waters of the St. Maurice and St. Lawrence. All the wharves on the riverfront, with the Richillon and Ontario Navigation company's sheds and offices and the Canadian Pacific railway freight sheds, are submerged. Hundreds of families are sheltered in public buildings. Over 1,000 logs were carried away by the flood, together with Marscelto bridge, 600 feet long.

THE REPUBLICAN PLATFORM.

The following plank in the National Republican platform adopted at the convention held at Minneapolis, Minn., in 1892, on the silver question, is good enough for any true American to stand upon, it seems to us:

The American people, from tradition and interest, favor bimetalism, and the Republican party demands the use of both gold and silver as standard money, with such restrictions and under such provisions, to be determined by legislation, as will secure a maintenance of the parity of value of the two metals, so that the purchasing and the debt-paying power of the dollar, whether of silver, gold or paper, shall be at all times equal. The interests of the producers of the country, its farmers and its workmen, demand that every dollar, paper or issued by the government shall be as good as any other. We commend the wise and patriotic step already taken by our government to secure an international conference to adopt no measures as will insure a parity of value between gold and silver for use as money throughout the world.

Don't fail to put yourself on the right side in city affairs by voting for the republican councilmen.

While the vote was light for the purchase of the gravel roads yesterday, it was sufficiently decisive to show that the people were for it. It is another step in the right direction.

THE MONEY question is here to be settled and the sooner party leaders recognize the fact and take a decided stand for sound money the sooner business will revive.

While the majority of the republicans in Indiana are favorable to the nomination of McKinley, it does not necessarily follow that the delegates should be instructed. They can be depended on to properly represent the people.

FOR SEVERAL months the Columbus Herald has had standing at the head of its editorial column: "For President, Farmer Claude Matthews." But for some reason, unknown to the public, this declaration has recently disappeared, and Matthews has gone to Kentucky for his health.

THE SOUTH is developing some novelties in politics. One of the Taylor brothers filled himself into the governorship of Tennessee, Senator Tillman, of South Carolina has secured notoriety by pitchforking President Cleveland, and now Tyre Zerk, in seeking a nomination for congress in North Carolina, is riding around the district on the back of a bull.

THE DOWNFALL of the B. & O. railroad has been one of the most remarkable in recent years. Within twenty years stock that was selling at a high as 210 has become practically worthless. Men who had accumulated great fortunes left stock in their wills to Johns Hopkins University as the best and wisest of investments. The stock was regarded as good as a bond, and to-day it is practically worthless. Funds amounting to millions of dollars have disappeared with nothing to show for it.

By May 5, electrical power from Niagara Falls will be turning wheels in New York city. It will be a matter of general interest to discover whether electrical transmission will succeed over so long a distance, 462 miles. There is one transmitting wire in Europe that is 110 miles long and is successful. That is however, less than a quarter of the distance from Niagara Falls to New York. The current employed will be that of Tesla, which he claims can practically be sent around the world if necessary. The Niagara current will be utilized at first for the machinery exhibited in the New York electrical exposition, which opens May 8.

IN REPLY to a resolution of the Indiana legislature in 1823 asking Gen. Jackson, then a candidate for president for his views on the tariff question Jackson said: 'I pray you, sir, respectfully to say to the senate of Indiana that my opinions at present are precisely what they were in 1823 and 1824, when they were communicated by letter to Dr. Coleman, of North Carolina, and when I voted for the present tariff appropriations and for internal improvements.' He asked that the Coleman letter be made a part of this communication.' In that letter Jackson declared himself in favor of "adequate and fair protection, that our manufacturers and laborers may be placed in a fair competition with those of Europe." He also said: "A short, sir, we have been too long subject to the policy of British merchants. It is time we should become a little more Americanized, and instead of feeding paupers and laborers of England, feed our own; or else, by continuing our present policy, we shall all be rendered paupers ourselves." This was Jackson's reply to the resolutions of the Indiana legislature, and on this platform of protection to American industries he was elected president in 1828.

T. ESTRADA PALMA has sent to the American people an address which declares that conditions of peace will be accepted by the Cuban government, of which he is president, except such as give Cuba absolute independence: Death is preferable to a continuance under Spanish rule. He says: 'If Spain has power to exterminate us, then let her convert the island into a vast cemetery, if she has not, and wishes to terminate the war before the whole country is reduced to ashes, then let her adopt the only measure that will put an end to it and recognize our independence. Spain must know by this time that while there is a single living Cuban with dignity—and there are many thousands of them—there will not be peace in Cuba nor even hope for it. All good causes must finally triumph, and ours is a good cause. It is the cause of right suppressed by force and of the dignity of a people offended to the last degree. We have thrown ourselves into the struggle advisedly and deliberately; we knew what we would have to face and we decided unflinchingly to persevere until we should emancipate ourselves from the Spanish government. And we know that we are able to do it, as we know that we are competent to govern ourselves.

* * * We are Americans, we breathe the pure air of free institutions and we contemplate with envy the government of the people, by the people and for the people."

As to Wool.

Clipping has commenced earlier than usual owing to the prevailing warm weather. The crop will be at least twenty-five per cent. smaller than in previous years. The low prices of last year caused many farmers to reduce their flocks while others have gone out of the business entirely. The immediate outlook for better prices is not at all flattering as imports of woolen goods as well as of raw wool have been very large during the past fifteen months. The supply of last year's clip of wool carried over was the largest in the history of the country and as many woolen mills have ceased operation and others are running on short time, the consumption of wool will be much curtailed. Wool growers should not be hasty in parting with their clip. The coming change in administration will no doubt give the necessary relief to the American wool grower and we shall soon see remunerative prices again.

TAMP CO.

Mother earth is now robed in verdure. The atmosphere is filled with an enlivening spirit. The farmers are preparing their corn ground. J. J. Waskom is building a new house for J. B. Thompson. The Keach band played at a church social at Brownstown last Wednesday night. The Reynolds band is making rapid progress. Fred Potemich went to Seymour Tuesday. Lizzie Snyder did a heart trouble last Sunday. Look out for wedding bells again soon. Sheridan Borge called on the sick Sunday. John Enderbrook is improving slowly. Rice Waskom, who has lingered with consumption for some years, departed for the better land where sickness, sorrows and troubles never come. He died last Friday at 9 p. m. The funeral took place at 10 a. m. Sunday. Rev. Barile conducting the funeral services. The funeral procession was the largest ever witnessed in this vicinity. Rice Waskom was a noble young man and a devout christian. He did not fear death. The entire community mourns the loss of the deceased and our sympathies are with the bereft parents and relatives.

During the winter of 1893, F. M. Martin, of Long Beach, West Va., contracted a severe cold which left him with a cough. In speaking of how he cured it he says: 'I used several kinds of cough syrup but found no relief until I bought a bottle of Chamberlain's Cough Remedy, which relieved me almost instantly, and in a short time brought about a complete cure.' When troubled with a cough or cold use this remedy and you will not find it necessary to try several kinds before you get relief. It has been in the market for over twenty years and constantly grown in favor and popularity. For sale at 25 and 50 cents per bottle. C. W. Millhouse, The Druggist.

INDIANA CORONER NEEDED.

Holmes' Attorney Wants the Records of the Pitzel Inquest. INDIANAPOLIS, April 22.—Coroner Oastor has received a telegram from S. P. Rotan of Philadelphia. Rotan is one of the attorneys of H. H. Holmes and he asks the coroner to come at once to Philadelphia and bring with him the records of the Pitzel inquest. The attorney also wired \$75 to the coroner for his time and expenses and he will probably leave for Philadelphia the latter part of the week. The coroner thinks that the telegram means that Holmes intends in some way to make one more fight for his life. He is now of the opinion that his high priced confession was not for the benefit of his wife and children, but in order to procure funds with which to make one more effort to save himself.

Skeleton Unearthed.

CANNELTON, Ind., April 22.—Smith McCallister, while digging on his farm, unearthed a skeleton, partly cremated. Pieces of charred wood, a brass button and the framework of an old grip were found with the bones. The discovery recalls the mysterious disappearance of a Jewish peddler of Louisville near this place 20 years ago. He is supposed to have been murdered for his money.

BURDEN JEWEL ROBBERY.

Mystery of the Theft in a Fair Way to Be Cleared Up.

NEW YORK, April 22.—The mystery of the theft of the Burden jewels is in a fair way to be fully cleared up. The grand jury indicted Edla Stinquist, charged with being after the crime. Miss Stinquist was a kitchen girl in Mr. Burden's house at the time of the robbery, who was known to be on friendly terms with William Roberts Dunlop, the butler, and William Turner, the footman, who were arrested in London by Inspector Frost of Scotland Yard.

At the district attorney's office yesterday she would not admit that she knew anything about the robbery. Assistant District Attorney Battle said she knew of the robbery and helped the two servants, Dunlop and Turner, to conceal the jewelry.

Part of the jewelry she concealed in a ham. She cut open the ham and placed some of the jewelry in it. It remained there for two days, when the men went there and took the jewels out and carried them out of the house.

Murder or Suicide?

SHENANDOAH, Ia., April 22.—Mrs. Mary Johnson was found dead and her brother, E. A. Jagger, dying in their residence. A revolver with which the shooting had apparently been done, lay on the floor. It is believed by some that Jagger killed his sister and himself. He was a local merchant and no reason is assigned for the deed. Officers are working on a double murder theory.

Strike Declared Off.

CHICAGO, April 22.—The strike of the clothingcutters, which has been in progress for the last three months, has been declared off. The employers won an unconditional victory. The garmentworkers' union is expected to give in today. About 15,000 men were out, clothingcutters and garmentworkers combined.

Holmes Juryman Killed.

PHILADELPHIA, April 22.—Lin C. Biles, who was foreman of the jury that tried H. H. Holmes for the murder of B. F. Pitzel, was killed by electricity yesterday and his son received injury that will probably result fatally. They were endeavoring to remove a telephone wire which had become crossed with an electric light wire on the roof of their house when they received the deadly shock.

Affidavits as to personal character may be necessary to allay suspicion or to attract the simple minded; but what has the manufacturer's private character to do with the efficacy of his so-called "cure"? Ely's Cream Balm depends solely upon its reputation of years as a successful cure for catarrh in all its stages. It is absolutely free from mercury or any other drug injurious to the system. Being applied directly to the diseased membrane it affords instantaneous relief and will effect a perfect cure of catarrh.

Those who are troubled with rheumatism should try a few applications of Chamberlain's Pain Balm, rubbing the parts vigorously at each application. If that does not bring relief dampen a piece of flannel with Pain Balm and bind it on over the seat of pain and prompt relief will surely follow. For sale by C. W. Millhouse, The Druggist.

RAILROAD PROJECT

Line to Extend From Whiting Around Chicago.

ATTORNEY GENERAL WILL MOVE.

He Will Endeavor to Stop Racing at Forsythe at the Expiration of the Fifteen Days—Bedford Buildings Burned. After a "Peeping Tom"—Indiana News Notes.

HAMMOND, Ind., April 22.—All the preliminary arrangements have been made and negotiations are pending, as a result of which the Chicago, Hammond and Western Railroad company, incorporated at Springfield with a capital stock of \$1,500,000, will undertake a project to build and operate a belt line around the city of Chicago. Just how long the arrangements have been in progress is not known, but it is ascertained from reliable sources that they have reached a point which makes it certain that the work will be carried out. The line will be extended from Whiting, Ind., to the extreme northern limits of Chicago via Hammond and Blue Island, thereby creating a better method of transfer immediately outside of Chicago between all the railroads now entering and leaving the city.

KETCHAM READY TO MOVE.

Will Proceed When Racing Begins on Sheffield or Roby.

INDIANAPOLIS, April 22.—Attorney General Ketcham says that the state will be ready to move against the Roby racing people as soon as there has been racing on the Forsythe track 15 days and an effort is made to begin running on the Sheffield track or on Roby track. Attorney General Ketcham will have the assistance of an attorney at Hammond and one at Lafayette.

The state's representatives are not conceding the fact that the case they have before them is more perplexing than the one they tried and won last year. The question of ousting the race-track people, or preventing more than 15 days of racing in 45, will hinge upon the juxtaposition of the three tracks. It is conceded by the state that if the tracks under consideration were widely scattered there would be no question of the right of the owners to race continually by moving from one track to another.

The state is now gathering information as to the relative location of the tracks. If the governor and the attorney general have been correctly informed they are all in the same neighborhood. The state will maintain that where three tracks have been constructed on the same 160 or 80 acres of land there is a violation of the Sellers' act.

She Won't Patch His Pants.

LOGANSPORT, Ind., April 22.—Burrough Shields, a well known farmer living near Logansport, has sued for a divorce, saying that his wife refuses to cook for him or patch his trousers. He also alleges that his better half hides the skillet so that he cannot cook for himself and amuses herself by throwing stovewood through the windows and breaking the furniture. They have been married 17 years.

Bedford Buildings Burned.

BEDFORD, Ind., April 22.—The building on the southwest corner of the public square, known as the Helen Lewis corner, caught fire yesterday. It was occupied by two butcher shops and a barber shop, and immediately adjoining was a bakery and a restaurant and a sample house for a clothing firm. All of the buildings burned, with nearly all of the contents. The loss exceeds \$2,000.

Attacked by a Dog.

VEEDERSBURG, Ind., April 22.—The 6-year-old son of John Adkins of Westport, was attacked by a dog, the animal seizing him by biting him on the mouth and tearing off a large piece, both from the upper and lower lip. A physician sewed on the pieces, and thinks that possibly the boy is not seriously maimed.

After a "Peeping Tom."

ARCADIA, Ind., April 22.—For several weeks a "Peeping Tom" has been annoying the women of Arcadia and a fund has been contributed by citizens, a rope purchased and a detective employed. If the scoundrel is caught, there will be serious work ahead.

Farmer Kicked by a Horse.

FRANKFORT, Ind., April 22.—John Crum, residing east of the city, was kicked by a horse yesterday while attempting to clip the animal. It is thought that he can not recover. He is a prosperous and well respected farmer.

Fifteen guests at the feast following the marriage of Robert Merchant and Miss Jessie Adwill, near Brookston, were prostrated by eating pressed chicken, which had been prepared the day before, and for a time there was fear that several would die. Mr. Merchant, the bridegroom, and L. E. Secret, were among those doubly prostrated.

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, indigestion, constipation, dizziness yield to Electric Bitters 50c. and \$1.00 per bottle at J. H. Andrews and Co.'s Drug Store.

POLITICAL POINTS.

Maryland delegates will vote first for Lowndes, then divide between McKinley and Reed.

W. E. Russell's presidential boom was launched yesterday by the democrats of Massachusetts and Rhode Island.

Ex-secretary Whitney has made a trip to Washington to take charge of the sound money interests at the Chicago democratic convention.

Comptroller Ekels says: "I don't know anything positively about President Cleveland's intention or wishes relative to the presidency, but my impression is that he feels that there is no reason why he should be willing to enter another presidential canvass."

Fire at Bedford.

A special yesterday from Bedford says: Fire broke out at 2 o'clock this morning and destroyed the northwest quarter of the public square, involving the "O. K." bakery of Carmichael & Bodemer, Forest Brown's clothing establishment, G. W. McKnight's butcher shop and Steven Hodge's butcher shop. The buildings were owned by Mrs. Helen Lewis and Forest Brown, and were some of the ancient buildings erected here. Cause of fire unknown.

Married.

Patrick Welch, of this city, and Miss Mollie Gault, late of Milan, were united in marriage at 8 o'clock Wednesday morning, April 22, 1896, at the home of the bride's sister, Mrs. Will Kernan, at Birmingham, Ala., with Rev. Father O'Riley tying the nuptial knot. The contracting parties are well known young people. The groom is an employee of the B. & O., and the bride is respectfully connected in Seymour. The happy couple are expected here to-morrow night on No. 3. They will reside here. The Republican in common with the many other friends extends congratulations in wishing Mr. Welch and his amiable bride a pleasant wedded life.

Gilbert Chastien and Mrs. Alice Chastien, both respected people of Seymour, repaired to the home of Eder Thomas Jones at 8 o'clock when he said the words that made them husband and wife. May prosperity be theirs.

A New Game.

A new game called the "Editor's Delight" is played this way: Take a sheet of ordinary writing paper, fold it carefully and enclose a bank note sufficiently large to pay up all arrearages and one year in advance. Keep an eye on the editor, and if a smile adorns his face the trick works like a charm. Now is the time to play the joke.

CHURCH NOTES.

Our people who attended the Baptist Sunday School Convention at Brownstown came home last evening and all reported the meeting a pronounced success in every way.

Justices A. T. Simons and A. J. D. Thornton, with Drs. M. F. Gerrieh and J. M. Shields have held an inquest in lunacy on Henry Wilson, colored, and they found him to be violently insane. He will be taken to the Insane hospital at Indianapolis.

The Rural Telephone company is rapidly connecting the small towns of Bartholomew county by wire. Nearly every town in the northern part of the county can now talk to its neighbors. The lines are spreading into Shelby and Johnson counties. The service is given at a minimum cost, the stockholders buying their own instruments and putting up their own wires.

Gravel Road Elections.

A very light vote was polled yesterday on the question for and against the purchase of the toll roads in Jackson, Redding and Hamilton townships but the majority was decidedly favorable to the purchase. The following is the vote:

JACKSON TOWNSHIP.	For.	Against.
1st precinct	74	13
2d "	93	4
3d "	117	12
4th "	68	29
5th "	46	33
6th "	45	31
7th "	21	21
Total	464	143

REDDING TOWNSHIP.	For.	Against.
Rockford precinct	123	21
Reddington "	113	23
Total	236	44

HAMILTON TOWNSHIP.	For.	Against.
Total vote	265	28

This makes the vote in these townships practically unanimous, and gives a handsome majority for the proposed purchase. Jackson county does not propose to be behind the times in the matter of free roads.

Marvelous Cure.

From a letter written by Rev. J. G. Gerdner, of Dimondale, Mich., we are permitted to make this remark: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at River Junction she was brought down with pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at J. H. Andrews and Co.'s Drug Store. Regular size 50c. and \$1.00.

COURT NOTES.

Judge Applewhite, A. N. Manden and many others went to court to-day.

In the circuit court Tuesday, two sons, aged 11 and 16 years of William Bowers, of near Brownstown, were sentenced to the reform school at Plainfield for incorrigibility.

A motion for a new trial in the suit of Wesley Hirschburg against John Jones and wife for damages was made and argued at length in the circuit court Tuesday and was promptly overruled. An appeal was at once prepared for taking it to the supreme court.

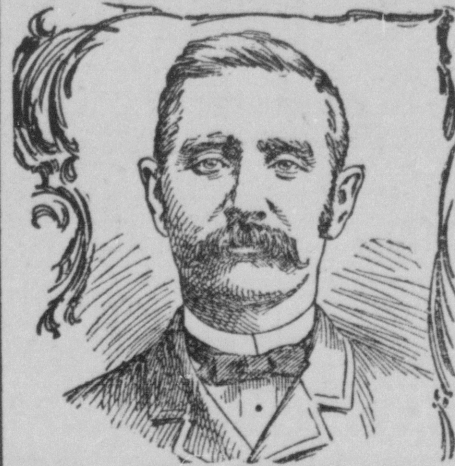

In the circuit court yesterday the suit of Paschal Carter against the B. & O. for damages for the burning of fences and other property on this farm near Conlogar, was compromised, the company to pay him \$175.

After meals you should have simply a feeling of comfort and satisfaction. You should not feel any special indications that digestion is going on. If you do, you have indigestion, which means not-digestion. This may be the beginning of so many dangerous diseases, that it is best to take it in hand at once and treat it with Shaker Digestive Cordial. For you know that indigestion makes poison, which causes pain and sickness. And that Shaker Digestive Cordial helps digestion and cures indigestion. Shaker Digestive Cordial does this by providing the digestive materials in which the sick stomach is wanting. It also tones up and strengthens the digestive organs and makes them perfectly healthy. This is the rationale of its method of cure, as the doctors would say. Sold by druggists, price 10 cents to \$1.00 per bottle.

A proposition to build some new gravel road in Redding township was defeated yesterday by about twenty voters.

A Railroad Official's Experience.

MR. EDWARD EDMONDS, long connected with railroad construction in Nebraska, writes: "My heart troubled and pained me for 15 years. Shortness of breath was the constant and most common symptom. Intense, excruciating pain, generally followed an severe exertion. Pains, hunger without any appetite; fluttering that made me clutch my breast, and palpitation that often staggered me as if I would fall, were frequent attacks. Again, everything would turn black if I arose from a stooping posture quickly. Sleepless nights with their prostrating unrest were numerous and I could get no rest day or night. I consulted leading physicians and tried advertised remedies. They gave me no relief. One of Dr. Miles' circulars described my case so exactly that I took Dr. Miles' New Heart Cure and I am now a well man. I hope every one troubled with heart disease will try Dr. Miles' remedies. If they will write me personally, I will gladly give them full details of my experience." EDW. EDMONDS.

"Uncle Tom's Cabin."

The parade given by the Cook Twin Sisters Big 3-Car Uncle Tom's Cabin Co., is actually a novelty. It's worth coming miles to see. The Cook Twin Sisters Big 3-Car Uncle Tom's Cabin Co. at the Opera House April 24, is the largest and most complete company of its kind traveling. Press and public with one accord pronounce this a grand production of Mrs. Stowe's immortal novel. The grand parade you cannot afford to miss.

The immense progress in American business that has been made during the last half century is strikingly exemplified by some statistics furnished by one of our great railway lines. The Pennsylvania Railroad Company was organized in 1846, and celebrated its fiftieth anniversary last week at Philadelphia. The road was first opened as a transportation line in 1852, when it had 221 miles of track. During the first year of its existence it transported 500,000 passengers and 70,000 tons of freight, and had a gross income of less than \$2,000,000. To-day the company controls 9,000 miles of track; and last year it carried 55,000,000 passengers and 160,000,000 tons of freight, and its gross income was over \$133,000,000. Since the formation of the company it has paid \$166,000,000 to its shareholders.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

SELECTIONS

APPLES AS COSMETICS.

A Physician on the Value of Fruit in the Spring Diet.

An ounce of prevention is worth a pound of cure. A little spring tonic is better than a gallon of summer medicine.

Human beings, like trees, wish to put out fresh sprouts in a few weeks. A good dose of spring medicine enables them to do so in better form.

I asked a physician yesterday what was the best tonic for this season of the year. He answered, "Fruit."

"Nothing is better than a plentiful diet of fruit for the spring," he continued. "I would omit bananas. They agree with some, but are apt to give the majority indigestion."

I told him that in my school days each spring the scholars were allowed to buy a barrel of apples. No restriction was put upon our eating as many as we wanted. The teachers selected good stock, and our parents approved of the programme. It was an old fashioned school, and that spring diet of apples was part of the curriculum.

When some one interrogated our old schoolmaster once about the oddity of this custom, he answered, "I never could teach anything to children with torpid livers;" hence the diet of apples.

"Your schoolmaster was a man after my own heart," said the physician. "Apples are the finest spring medicine there is. A half dozen a day is a good dose. With children so desirable a medicine has no terrors. Where something out of a bottle could not be forced down their throats an apple will be begged for, and the young rascals are just administering to themselves the best of medicine."

"A woman may talk about the benefits resulting to the skin from this or that cosmetic, but if that woman would go in for a fruit cure take my word for it she would get more admirable results than ever hoped for."

Lemons, oranges, grapefruit, apples and grapes.

"Just before breakfast every morning squeeze a lemon into a glass of hot water without sugar. Don't gulp this down, but sip it. The hot water is excellent for the stomach, and the lemon cuts through the dryness in the throat, which is a usual morning condition."

"It stimulates the appetite and filters its way into the blood, purifying as it goes. This is an hour probably before your coffee, preceding one's bath and toilet. By breakfast one is ready for the orange, which puts the palate into a pleasant tinkle for its food."

"Grapefruit, or the large Florida shaddock, is excellent for luncheon. Eat it with plenty of sugar, as you know it is a most toothsome dish."

"For dinner I know of no special fruit to adopt. Baked apples are always palatable with one's meat, and oranges can follow with the coffee."

"Before bedtime comes the apple, or two of them, if you care."

"But that doesn't make up your six apples, doctor," I said.

"Oh, the others are added all through the day," he answered. "Eat one whenever you feel so inclined. I should advise a woman to keep a bowl of fruit in the room, she often sits in, so that whenever she feels inclined her appetite may be easily satisfied."

"But as I don't care especially for fruit, doctor," I said, "the inclination may never come."

"Yes, it will," he answered. "It's like drinking beer in Germany. You can't stand a glass when you first get there, but you find yourself drinking quarts a day in a few weeks' time."

"If one is in the habit of awakening in the night and feeling thirsty, a lemon squeezed over a glass of cracked ice and placed on a table near the bed will be found the most palatable of drinks."

"You have great faith in fruit, doctor," I said. "It's almost a cure all, eh?"

"Well, it would serve the purpose of medicine very frequently if adopted," Boston Advertiser.

Only Three Monarchs Crowned.

The magnificent and costly preparations now going on at Moscow and elsewhere for the approaching coronation of the czar and czarina recall to mind the fact that very few European sovereigns have gone through the ancient ceremonies which constitute a duly "anointed king." With the exception of Queen Victoria, the emperor-king of Austria, Bohemia and Hungary and King Oscar of Sweden, no other reigning monarch has been consecrated by religious rite. In the case of the king of Italy there were obvious reasons why the services of the church should have been dispensed with. It is less intelligible that so Catholic a king as Carlos of Portugal should have been content to take the oath in the Cortes and attend a "Te Deum" only in the cathedral. A mere oath, too, sufficed for the establishment of King George upon the somewhat rocky Hellenic throne. The crowns of Holland and Spain, of course, are, so to speak, in commission. As to the kaiser, he did not even care to go through the formality observed by his grandfather, but deemed it enough to make a solemn declaration at the opening of the imperial parliament.—London Letter.

Mr. Austin's Latest Gem.

At the request of the committee charged with the erection of a monument to Edward Capern, the postman poet, who has often been spoken of as "the Devonshire Burns," the poet laureate has written the following lines to be inscribed on a slab of gray Dartmoor granite:

Oh, larklike poet, carol on,
Lost in dim light, an unseen truth!
We in the heaven you yearn to join
Find you no more, but hear you still.

THE END SEAT IN THE PEW.

It is the Place Occupied by the Protector of the Family.

"It is common enough," said Mr. Gratebar, "to see a man sitting in the aisle end of a pew in church get up on the arrival of some other member of the family, step out into the aisle to let the late comer in, and then resume his seat at the end of the pew. It seems to me that I have read that this custom originated in New England in the early days, when the men all sat by the aisle so that they could seize their guns and get out promptly in case of attack by Indians. We don't have much to fear from Indians nowadays, but the seat by the aisle is still occupied by the head of the family. He stands in the aisle while the others pass in, and then calmly takes his place in the end seat, at the head of the line, as a sort of general protector."

"Sometimes in these days, we are so very free from Indians now, the head of the family thinks it is safe for him to stay at home when he has a headache, and then the young son takes his place. I imagine that he talks it over with his mother on the way to church, so that it is all understood. When they get to the pew, he stands in the aisle while his sisters and his mother pass in. I fancy that his sisters are rather glad when they are all seated and no longer conspicuous, but upon his mother's face as she brushes past him into the pew there is a smile of affectionate pride, and then he takes his seat in his father's place and sits there with fine boyish dignity."—New York Sun.

Salt For Insanity.

A physician, in treating an insane patient, found it admirable to make use of subcutaneous injections of salt. The patient had obstinately refused all nourishment, and the salt was given as an experiment in nutrition, this treatment having been made use of some time previously. To the doctor's surprise, some of the worst symptoms of insanity disappeared. Further trials convinced the faculty of the value of this discovery, and, according to all indications, there is in this course the germ of a discovery that will entirely revolutionize the treatment of the insane. We are told that the human body consists of about a dozen elements. When these are present in too great quantity or are lacking, we are ill. The great art is to decide just what element needs regulating. When this is done, we are restored to health.—New York Ledger.

An Antemortem Tomb.

At Ludlow, Vt., there is a curious looking tomb which has been erected by a well known miller of that place. It is in the exact shape of a millstone and stands on four granite supports designed especially for that purpose. The owner, who expects to be buried in it sooner or later, is so proud of his monument that he exhibits an exact model of it every year at the county fair.—St. Louis Republic.

ON THE SCRAPBOOK PLAN.

Evangelist Moody Makes Up His Sermon From All Sorts of Material.

Moody's method of sermon making is original, says McClure's Magazine. In reality his sermons are never made—they are always still in the making. Suppose the subject is "Paul." He takes a monstrous envelope, capable of holding some hundreds of slips of paper, labels it "Paul," and slowly stocks it with original notes, cuttings from papers, extracts from books, illustrations, scraps of all kinds, nearly or remotely referring to the subject. After accumulating these, it may be for years, he wades through the mass, selects a number of the most striking points, arranges them and finally makes a few jottings in a large hand, and these he carries with him to the platform. The process of looking through the whole envelope is repeated each time the sermon is preached.

Partly on this account and partly because in delivery he forgets some points or disproportionately amplifies others, no two sermons are ever exactly the same. By this method also—a matter of much more importance—the delivery is always fresh to himself. Thus, to make this clearer, suppose that after a thorough sifting 100 eligible points remain in the envelope. Every time the sermon is preached these hundred are overhauled. But no single sermon, by a mere limitation of time, can contain, say, more than 70.

Hence, though the general scheme is the same, there is always novelty in the arrangement, for the particular 70 vary with each time of delivery. No greater mistake could be made than to imagine that Mr. Moody does not study for his sermons. On the contrary, he is always studying. When in the evangelistic field, the batch of envelopes, bursting with fatness, appears the moment breakfast is over, and the stranger who enters at almost any time of day, except at the hours of platform work, will find him with his litter of notes, either stuffing himself or his portfolios with new points he has picked up through the day. His search for these "points," and especially for light upon texts, Bible ideas or characters is ceaseless.

Suit-able.

"My," said the shoe clerk boarder, "but I did get a fine lot of sarcasm from my tailor when I had to stand him off again. Still, I rather think I deserved it."

"In other words," gurgled the cheerful idiot, "you deem his remarks both cutting and fitting."—Indianapolis Journal.

MYSTERIOUS TIDES.

THOSE OF THE LAKES THAT THE SKIPPER CALL SWASHES.

They Rise Suddenly From Calm Water and Display Many Strange Caprices—An Old Lake Erie Skipper Talks Interestingly on the Subject.

"Tidal waves on the great lakes are not of uncommon occurrence," said an old Lake Erie skipper, "and although meteorological experts have for more than 100 years tried to study out their cause we don't know any more about it now than they did at the time the great wave rose suddenly on Lake Erie, off Rockport, and destroyed Colonel Bradstreet's fleet, in October, 1764. That was the first tidal wave on the lakes that we have any record of."

"I have seen many of these swashes, as we call them on the lakes, the last one about ten years ago, when my schooner was swept high and dry at Port Stanley by a wave that seemed to rise on the lake like some monster marine animal coming from the depths to the surface. We could see it rushing toward us a mile away. It came with a boiling front ten feet high, hissing like loud escaping steam as it swept toward us. That is a peculiar thing about the lake tidal waves. They do not come with a roar, like the ocean surf, but with a loud, hissing sound, and there is only one instance on record where they are either accompanied or followed by strong winds."

"That one instance was at Toledo, in December, 1856, when the wind, which had been blowing stiff offshore, suddenly whirled into a howling nor'easter, and as quick as the change in the wind that wave leaped out of the lake and came hurrying upon the shore, a wild and angry mass, eight feet high. In every other recorded occurrence of these mysterious freaks of the lake waters the surface of the lake has been perfectly calm and the air scarcely perceptible."

"Such was the condition when that big wave attacked us at Port Stanley, swamping my schooner and drowning one of my men. The wave receded as fast as it had rushed in, and the lake, in less than ten minutes, was as smooth as a mirror."

"Within the next hour there were four more swashes, each one of less force and volume, until the last was scarcely more than a ripple."

"Almost the first thing I remember, for I was but three years old at the time, was one of these tidal waves. It appeared early in the spring on the Canada shore, off Otter Creek. There was a piece of woods there then, with a long stretch of beach between it and the lake. My father had a 35 ton schooner lying off the shore half a mile or more. The water was a dead calm, when, without warning of any kind, a wave lifted itself from the bosom of the lake, probably 1 1/2 miles out, and swept shoreward with its mighty hiss. My mother and I were with father on his schooner. As that swash came rushing upon us it seemed to me as if the leaping foam of its white crest was higher than the schooner's masts, but I know now that it was not more than 19 feet high. The wave was high enough and strong enough, though, to sweep the schooner ashore as if it had been a cockleshell, and across that stretch of beach into the woods, where it was left among the trees, a hopeless wreck."

"In ten minutes the lake was as calm as ever, but an hour later a similar wave appeared at Kettle Creek, 20 miles from Otter Creek, and tumbled all sorts of lake craft ashore."

"I guess the greatest tidal wave ever seen on any of the lakes was the one Dr. Foster and his party of voyagers saw on Lake Superior, between Copper Harbor and Eagle river. That was in August, 1845. This swash was more than 20 feet high, and like all of its kind, sprung suddenly from the lake at dead calm. It was a quarter of a mile distant from Dr. Foster's boat, which, when the disturbance began, was directly in the path of the wave. It was created with foam, and curled over like a mighty ocean surge. Before reaching the boat, however, the wave turned so that its nearest extremity swept past it at a distance of 50 feet, the water between that extremity and the boat being scarcely ruffled by the influence of the rushing tide."

"The wave was only half a mile from shore, but notwithstanding its great size and velocity it never reached there. The same mysterious caprice that caused it to change its course and pass harmlessly by the vessel seemed to seize it once more, and it sank rapidly from its great height as it approached the shore and struck the beach with no more force or rise of water than might have come from the wash of a passing vessel."

"I remember a notable swash on Lake Michigan at the mouth of the Menominee. That one appeared in April, 1858, and rushed into the river with such tremendous force and volume that it upset the ferryboat on the Menominee. The recurrent oscillations of these swashes are usually of decreasing size and force, but this one on the Menominee wasn't that kind. The ebb of this tide was just as sudden as its flow, but in a few minutes it was followed by another wave much larger than the first one, and the ebb of the second swash was followed by a wave still larger than the second."

"That seemed to satisfy the mood of the lake at Menominee that day, and, with the receding of the third wave, calmness even unwonted prevailed on its bosom. The time between the coming of the first wave and the receding of the third was less than 20 minutes."

"The curious thing about these lake tidal waves is that they are entirely local in their influence. A swash, even of the greatest force and height, may not affect more than a mile of lake front, the water at either end of them being undisturbed beyond that distance. They always come in from the open water."—New York Sun.

Where Disease Is Bred.

When a sewer is clogged or choked up the accumulations poison the atmosphere in its vicinity and bring about the conditions that breed disease. We all know that in time of pestilence every precaution is taken, not only to keep the sewers free and open, but even to remove all decaying matter from the community. The danger of infection is thus minimized. How few of us who pay taxes for the maintenance of sanitary bureaus for the public health think of an equal requirement for our individual welfare. The alimentary canal is the great sewer of the human system. When that is dammed up conditions are generated which invite fevers and such diseases as our nature inclines to. Constipation is a clogging of the natural drains, and nearly everything we suffer from follows this condition. It will not do merely to clear the drains from time to time. We must repair and improve the working power of the machinery whose function it is to perform this work.

Smith's Bile Beans differ from pills in that they are more than a mere cathartic. They not only stimulate sluggish bowels and clear the system of all disease breeding matter, but they remedy the evil complained of; they restore power and freedom of operation to the secreting organs, and they tone up and strengthen the entire system. They are easy and soothing to take. Try them. 25 cts. a bottle, 5 bottles, \$1.00. For sale by druggists and medicine dealers throughout the country, or by mail, postpaid, on receipt of price.
